

Burnaby Association
for Community Inclusion

September is Disability Employment Month in BC!

In honour of this, BACI is reaching out to all individuals, families, staff, and community partners, to help us further explore and advance employment opportunities for the people we serve.

As an inclusive employer ourselves -- with approximately 10% of our workforce having a disability -- BACI is excited to celebrate the inclusive businesses and organizations in our community. Our BEST Employment Services & Training empowers adults with disabilities to attain their employment goals. And our participation in the BC Partners in Workforce Innovation initiative allows us to provide further employment opportunities to people of all abilities.

If you are aware of any community partners or businesses who already are inclusive employers -- or would like to increase their profitability by being an inclusive employer -- please let us know!

Please tell us a little about those businesses or organizations by contacting best@gobaci.com or calling 604-299-5100. Tell us their name, address, contact number, and why you think they are inclusive or are interested in being more inclusive.

If your suggestion turns into a potential employment opportunity for one of our jobseekers, your contribution will be recognized -- and the employer's story will be highlighted as well!
