BACI values & supports the diverse abilities of all people

The Burnaby Association for Community Inclusion (BACI) is a grassroots, non-profit organization that has spent over 60 years providing innovative services for children, youth and adults with disabilities and their families.

We currently serve over 1,000 individuals and their families in Metro Vancouver by providing various training, development, social and recreational opportunities. Through our various EmployAbility programs and social enterprise initiatives, we support the economic inclusion of people with disabilities. With our four integrated child care centres and Infant Development Program, we support over 400 children of all abilities and their families.

BACI continues to seek out opportunities to increase social awareness, and with integrity and conviction, effect change in the way individuals of all abilities are included in our society.
