

## **2017 Business Improvement Plan (BIP)**

The 2017 Business Improvement Plan is the overall operational plan for BACI. In other words, it's the plan we use to track and monitor our achievements as an organization. There are key processes built into the BIP – the findings and recommendations *Outcomes Management Report, Leadership Accountability Schedule, Technology Plan, Financial Plan, Risk Management Plan, Accessibility & Diversity Plan, Corporate Membership Plan and the 2016-2020 Strategic Actions Plan.*

The BIP is broken down into the six themes of the 2016-2020 Strategic Plan – **(1) Person-Centred Practice (2) Child & Family-Centred Practice (3) Healthy, Appreciated, & Well-Connected Workforce (4) Prosperity (5&6) Diversity & Inclusion (7) Partnerships.**

Some of the goals listed are broader in scope because they will be implemented throughout the Association. Specific and measureable action plans will be developed for each key goal. Where applicable, these plans will be developed, implemented, and monitored by either programs/services and/or the support services team. The Management Team will review the BIP and action plans on a quarterly basis.

### **1. Person-Centred Practice**

BACI is committed to developing and delivering services that are relevant and meaningful to each adult we serve. People being at the centre of their own planning and decision-making is at the heart of true person-centred thinking, planning, and doing. A deep understanding of an individual's personal expectations for services – and ultimately, a good life – is fundamental to the start of good service provision. Beyond planning, BACI must be as flexible as possible in order to respond to the diverse and ever changing support needs of the individuals it serves. Thus, once support needs, choices, and expectations are identified in the various planning processes, the Association shall be prepared and required to adjust or reorganize services, to the extent that it is capable, in order to best accommodate them.

- A. BACI will implement the recommendations from the 2016 Outcomes Management Report.
- B. **Advocacy** - BACI will listen closely and endeavour to honour the choices (explicit and implied) of the people we serve and when appropriate their families, including choosing where and with whom they live (*planning meetings documentation, isp development, on-going service evaluation, adult services action plan*).
- C. **Advocacy** - The people we serve grow and change as they get older and so do the roles they hold in community, at work, with their families and friends. We will make sure that the support we offer honours and celebrates their growth (skills, knowledge, and self awareness), helps them continue to grow. (*personal planning meetings, ISP development, transition plans, service evaluation, Adult Services Action Plan, on-going annual efficiencies, effectiveness and satisfaction surveys*).
- D. **Service Delivery** - BACI will ensure that personal planning approaches and processes are designed to capture the true wishes, expectations, curiosities and needs of each person

and then set a service response accordingly (*annual planning meetings, isp development, service evaluation*).

- E. **Community Development** - BACI will continue to support people to experience community in ways that are meaningful to them – and at the same time raise staff’s understanding that supporting people to be in community, is a ‘community building strategy’, one that should be intentionally honed (*staff meeting minutes, staff training, performance expectations, performance appraisals, on-going evaluation*).

## **2. Child & Family Centered Practice**

Family-centred values and practices are at the heart of our work. BACI honours and responds to the unique gifts and needs of each child as well as the rights and wisdom of their families. BACI strives to support and strengthen families’ abilities to nurture and enhance their child’s development and overall well-being. Services will be developed, offered, and measured consistent with this practice.

- A. We will implement recommendations included in the 2016 Outcomes Management Report.
- B. **Advocacy** - We will listen closely and endeavour to honour the choices (explicit and implied) of the children and families served. We will strive to enhance families’ abilities to support and nurture their child’s overall development and well-being (*service evaluation, Children Services’ Action Plan, IDP Action Plan, Children and Family Centred plans on-going review*).
- C. **Service Delivery** - BACI does not currently offer a wide array of support options to children and youth between the ages of 3 and 19. This is seen as gap that once filled will serve people well. BACI will endeavour to develop an array of support options for this segment of people (*Children’s Services Action Plan, IDP Action Plan, Youth Supports Action Plan*).

## **3. Healthy, Well-Connected Workforce**

BACI’s employees play a valuable and critical role in the success of BACI’s services, goals, mission, and vision. We will seek to foster an environment of mutual respect, appreciation, and collaboration. Employees have opportunities to connect, learn, and grow and strive to perform to the best of their capabilities. Our practices around human resource management and particularly our dedication and expertise in the areas of staff training and professional development continue to be a key commitment.

- A. BACI will implement the 2017 Leadership Succession Plan recommendations.
- B. BACI will implement the recommendations from the 2016 Outcomes Management Report.

- C. **Advocacy** –We recognize that the staff role is evolving beyond quality care giving. BACI will work to strengthen the evolving roles of staff by providing access to appropriate training and supervision (*HR/QA Action plan*).
- D. **Service Delivery** - An aging work force creates a dilemma. How can we honour both the changing needs of our staff, and the changing needs of those we serve – when the needs don’t necessarily line up? BACI will dedicate itself to develop an Aging Strategy that addresses this dilemma (*HR/QA Action plan*).
- E. **Community Development** - BACI believes staff can (and do) work in evolved roles as community builders and community connectors, as well as providers of quality care. We will focus on staff capacity building in this area (*staff training, Social R&D Journey Map, Building Caring Community Journey Map, Service Stitching Journey Map, service evaluation*).

#### **4. Prosperity**

Prosperity is about being strong, abundant, and thriving – moving beyond the status quo. Typically, prosperity is thought of as economic status and wealth. Instead, BACI’s agenda of prosperity wants to build financial strength but also generate ‘wealth’ in areas like: collaboration, assets (both tangible and intangible), partnerships, investments, presence, technology, communication, housing, and community development.

- A. Implement Recommendations included in the 2016 Outcomes Management Report.
- B. **Advocacy** - We will advocate with a spirit of abundance; we won’t just identify problems, we will work to find solutions (*Advocacy Committee meeting minutes, actions plan*).
- C. **Advocacy** - We will continue to design system to ensure the operation of BACI continue to strive, improve and meet desired outcomes (*Financial Plan, Communication Plan, Technology Plan, Risk Management Plan, Accountability Schedule, Social R& D Journey map*).
- D. **Service Delivery** - Providing good service to people at home has a lot to do with the home itself. Factors like affordability, location, room- mates, all influence the likely hood of support being successful. BACI will endeavour to ensure that where people live and who they live with provides a solid foundation for the delivery of other supports (*personal planning meetings, housing development*).
- E. **Service Delivery** – BACI is a ‘learning organization’ and as such we are in constant pursuit of improvement. BACI will incorporate a developmental evaluation approach into our service delivery practices (*new evaluation framework, adult services action plan*).
- F. **Community Development** - BACI believes that a community is stronger, richer, and more dynamic when it is inclusive, not just when we talk about. We will build this community by supporting the people we serve to:
  - Create homes that are sanctuary.
  - Excel and feel valued and fulfilled at work
  - Contribute through volunteering

## **5&6. Diversity & Inclusion**

BACI believes disability is a part of diversity. BACI is committed to practices that respect and advance diversity both within our own organization and throughout our community. Our ability to serve a diverse population well is linked directly to the diversity of our Staff, Leadership Team, and Board of Directors. Our vision of a community where everyone belongs includes a focus and celebration of the uniqueness of each citizen.

- A. BACI will implement the actions and recommendations from the 2017 Accessibility & Diversity Plan.
- B. BACI will prioritize and implement the recommendations from the Disability Confidence review.
- C. BACI will implement the recommendations from the 2016 Outcomes Management report.
- D. **Advocacy** - We will hold ourselves and others in the community to account around inclusion and diversity. When we come up lacking we will put plans in place to improve. When others come up lacking we will help them to improve. When we and others come up shining we will celebrate! (*Communication Plan, service evaluation*)
- E. **Service Delivery** - BACI's services will continue to support the people we serve to be socially and economically included in their community through providing employment and community connection supports (*Social R&D Journey Map, stitching services initiative journey map, service evaluation framework, personal planning meetings, performance expectations, performance appraisals*).
- F. **Community Development** - While seeking inclusion, and calling for diversity BACI will be inclusive and diverse in all practices and endeavours in community...where we buy, where we live, where we play, how we brand ourselves etc (*Accessibility & Diversity Report, CRM, Financial Action Plan*).
- G. **Community Development** - BACI will seek out and celebrate bright spots of diversity and inclusion in our community (*Communication Plan*).

## **7. Partnerships**

Relationships are a definite strength and asset for BACI. Our most important partners are the families of the people we serve. They are our allies in advocacy, service provision and community development. They help us to know and honour the children and adults we serve. The Association also prides itself on working with professionals, groups, and community friends in a collaborative and reciprocated manner. BACI will work with current and new partners in innovative ways to achieve shared goals, ventures and, learning. The Association must enroll its community partners to the Association's goals, mission, and vision.

- A. BACI will implement the recommendations from the 2016 Outcomes management Report.
- B. **Advocacy** - Our advocacy partners will share our commitment to not only identify problems, but to always seek solutions.

- C. Advocacy** - BACI will continue to look to families as our primary advocacy partners (*Family Support Action Plan*).
- D. Service Delivery** - BACI's services will continue to support the people we serve to be socially and economically included in their community through providing employment and community connection supports (*Employment Services Action Plan, Service Evaluation*).
- E. Community Development** - The families of the adults and children served through BACI are our valued partners in building inclusive community. We will strategically engage and leverage these partnerships to propel all our community building efforts (*Corporate Membership Action Plan*).
