

3.3 FIRST AID POLICY

Overview

BACI is committed to providing and maintaining first aid facilities and services at each work location for the treatment of injuries sustained by employees, volunteers and individuals we serve. First aid services and equipment shall meet the minimum required standards as per WorkSafeBC Regulations.

Regulations and Guidelines

BACI will comply with current and applicable regulations through WorkSafeBC, CARF, funders, and Licensing.

First Aid Qualifications

All employees working directly with children or adults are required to maintain current Basic First Aid Certification and training in Cardiopulmonary Resuscitation (CPR).

BACI has procedures that guide staff and volunteers to respond to emergencies. Procedures are updated annually and as needed to comply with WorkSafeBC, CARF, Licensing, and funders. All employees and volunteers are expected to be knowledgeable about processes and able to implement them.
